WORTH CONSIDERING .- The New York Tribune sums up the Tariff question in the following concise and forcible manner:-1. It is a fact that our country is at peace,

unscourged by postlience, in the enjoyment of generous harvests, and every natural element of prosperity. 2d. It is a fact that we have mines of

Iron, Copper, Lead, Zinc, and other useful of Congress, who refused to support Gen. Scott, was neither prepared by the advice materials, as also coal, equal in extent, variety and richness to any in the world. 3. It is a fact that we do produce food of

almost every kind, with Cotton and Wool ty to give what publicity you choose to an unlimited extent, and with as little labor as any other nation. 4. It is a fact that we have thousands of Gen. F. K. Zollicoffer.

men, women and children able and willing to labor, looking anxiously for employment, and yet wandering from day to day in idleness and destitution; and

5. It is a fact that we are, and for years have been, running more and more deeply in debt to Europe for Iron, Copper, Lead, Zinc, Silk, Wool, Flax, Hemp and the Rails, Cloths, Implements, and various articles of use or luxury therefrom fabricated.

Fellow Countrymen! can you say this is right! Ought we to be running in debt by Millions per annum for the products of European Lubor, while the American Labor that would gladly be employed in fabricating those same products stands idle in our market-places and vainly pleads for opportunity to earn the bread of honest toil! Can it be good policy which thus plunges us deeper and deeper in debt for products which our own people would gladly make if they had gencer says: but the chance! What do you say of the lin he refused absolutely to interfere in beowner and cultivator of fifty acres who hires half of German naturalized citizens who volstrangers to feed his stock while his boys untarily returned to their former country, FORERGY AND AMERICAN CHEMICALS, ing to organize. Senate proceeding to crfrolic at the tavern? Whither in private life sidered it as a settled question that there tends the policy that this country is how so

Fecklessly pursuing! Fellow Countrymen! we advocate stich a ted. change in our National Policy as will set lowed this precedent. He was not disposed our own people, now unwillingly idle, to admit the doctrine of Mr. Wheaton, except producing the Iron, Cloth, Silk, &c., for where the emigrant returned to the country mortgages in the shape of Railroad Bonds, State or Company Stocks, &c., &c. Will to procure this change?

The Richmond Enquirer, the leading Locofoco paper in Virginia, says:

"Our only weakness is the want of that unity and concert which the pressure of a formidable foe inspires."

That's it. So thought the Mexicans; so thought the British-and both discovered that the pressure was too powerful to be re- says that the prospects in Licking never sisted. FARE-TRADE .- The New York Times of Wednesday last, alluding to the recent rise n Breadstuffs caused by an expected partial failure in Europe, says:

"Produce bills begin to appear more freeby; but the relief from flour and grain, it should be borne in mind, in contrast with the "We in New Hampshire have hardly had a on Wednesday, October 20, 1857. Gentle dates current heavy import of goods, is inconsiderable. The 1,400,000 barrels of flour, and ber, 1851, would not pay for over one-half of the foreign imports of the month of August alone. The bulk of breadstuffs to go orward, under enhanced prices, it is hoped will be large, but a barrel of flour and 5 bushels of wheat, each to the £ sterling, create exchange slowly."

This is free-trade with a vengeance. It does not look as if it would materially benefit the growers of grain. Look at it. That which is exported, is low in price; that which finds a home market, is high.

Or The Telegraph is anxious to have another notice from us. We will give the poor beggar after favors three:

It says:-"The editor of the Gazette, who has to resort to posting the names of speak-

ers who he knew would not attend." In the polite language of the day, that is

not true.

It says again;—"The Gazette claims that the whole Whig party of this county is re-sponsible for its innumerable falsehoods and blackguardism." That is a falsehood.

It says yet again:-"It seems that the Gazette, as is very common with it, misquot ed the remarks of the Democrat."

That, in the expressive language of Noah Webster, is a "lie." The poor, miserable managers of the Tel-

enough to have opinions of their own, they are under the control of knaves.

DEAR SIR;—Your lester of August 14th, s before me. I remember with pleasure the light personal acquaintance we formed in Washington in June last.

The editorial article from the Nashville Union, which you enclosed, has very much surprised me, and I cannot but think there nust be some mistake in the report of Mr. C. H. Williams' conversation in the cars.

My father never advised me not to vote for Gen. Scott, and it is my determination, if I ive, to vote for Scott and Graham for President and Vice President of the United States. The manifesto of the Southern members for approbation of my father.
